

MARATHA ARCHIVES

TG : MarathaArchives

Jay Shivray,

First of all, thank you for opening this PDF.

We all know that finding books related to Maratha history can be quite difficult today. Maratha history includes - Bakhars, Modi scripts, Marathi letters, Persian Farmans and Akhbars, as well as various contemporary and foreign sources. Locating all of these is a significant challenge for a beginner trying to study the subject.

Therefore, as the owner of "**Maratha Archives**" I decided to create this PDF to compile various sources for Maratha history books. Below, you will find several websites along with step-by-step guidance on how to download history books from them.

Before we proceed, I would like to mention our Maratha Archives page on the Internet Archive. You can visit that page to Access Selected Books relating to Maratha history. Please note that only a Limited Collection is uploaded there; the complete archive is available exclusively on our Private Telegram Channel.

Here is the link to our page :-

https://archive.org/details/@kalpesh_shende

Instructions for joining our [Telegram](#) are provided in the profile description of our Internet Archive page. However, I have also included a brief summary of those instructions here :-

1. Search for "Maratha Archives Joining Group" on Telegram. Once you find the group, join it. You will see several folders; start by going to the "First - Read This" folder. There, you will find a message in both English and Marathi. Read it carefully, as terms and conditions apply.
2. Introduce yourself in the "Messages From Members" folder.
3. Within 24 hours, we will review your introduction and notify you of our decision regarding your joining to the channel.
4. You may also check the "Reason" folder, which explains the necessity of this process. If you are not a Marathi speaker, please translate that paragraph to read it.

Note :-

This compilation is intended exclusively for serious “Researchers & Students” of Maratha history. If you have a genuine interest in Rare Documents and Historical Research, please visit our Internet Archive profile or Telegram Group to complete the joining process for our Telegram Channel. We grant access only to selected and dedicated Scholars & Researchers.

Thank you

On this website, you can find a large collection of books related to various subjects. Books are available in Marathi, Hindi, English, and other languages. There are two methods to search for books here. First, you can directly search for the book title. Second, you can go to the search box and enter **Subject:Marathi MGS-CIS**. When you search this, you'll find all the classic Marathi books, including those on history, language, dictionaries, novels, and other subjects.

This website also has a large collection of books. You can click on the page's toolbar, select your preferred category, and download books. <https://www.esahity.com/>

5. E pustaklay

This website is connected to the *Internet Archive*. It stores certain specific and important books in its own database. Both websites are interconnected. <https://epustakalay.com/>

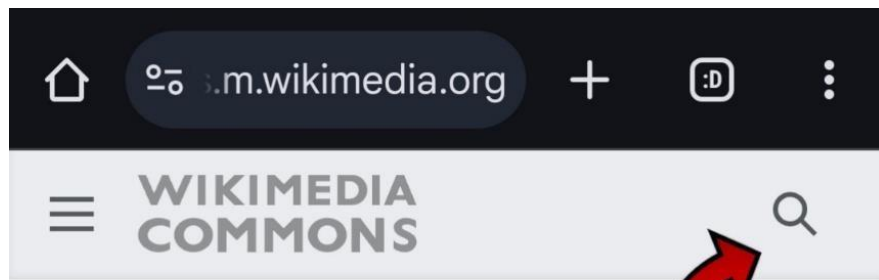

6. WikiMedia Commons

In my opinion, not many people are aware of this website. Since the website is named Wikipedia/Wikimedia, people often assume it only

contains various information. However, that's not the case—PDF books are also available here.

First, open the website and search for the subject of the PDF you want. For example, search for *Shivaji Maharaj*, *Sambhaji Maharaj*, or *Kavi Bhushan*. Make sure to search in both English and Marathi, as sometimes the PDF is available, but its title is in Marathi while you might be searching in English. I'm sharing photos below to guide you on how to download PDF books from the website.

7. Dokumen Pub

On this website, you will find many English books. While there aren't many books related to Maratha history, you'll find plenty on topics like the Mughals, Buddhism, the Gupta dynasty, and Ashoka. If you want to download the latest published books, you just need to enter the book's name followed by *Dokumen* in the search. If the book is available on the website, it will appear on the first page of the search results.

As an example, I'll show you how to download the book *Rebel Sultans*. First, search **Rebel Sultans Dokumen** on Google. Before downloading the book, a page will open with a *Download PDF* option. Next to it, there will be a vertical line showing other books

related to the same topic. You can download those books as well from there. <https://dokumen.pub/>

18. WikiSource & WikiMedia Commons

➤ Method 1: WikiSource

1. Open the [Wikisource](#) website. Type the author's name (e.g., N.C. Kelkar) into the search bar, add the word "साहित्यिक", and select both search options.
2. The name will appear in the search results; click on it to open the author's profile.
3. Scroll down to the "ग्रंथसंपदा" (Works) column, where you will find the list of books by that author.

4. You will see text in two colors: black and blue. Black text is standard text, while blue text indicates a clickable link to a specific book.
Click the blue link for the book you want.
5. A new page will open showing information about the book. Look for the "Source" section and click on the "PDF" link (highlighted in blue).
6. Another page will appear. Scroll down until you see one of two options: "Original file" (if you're using English Language) or "मूळ संचिका" (if you're using Marathi Language). Click this link to start your download.
7. **Note for Chrome users :-** Sometimes Chrome will only display the PDF instead of downloading it. To fix this, copy the page link and paste it into the "1DM Browser" app; then your download will start automatically.

➤ Method 2: Wikimedia Commons

1. In Step 4 of the first method, I mentioned black and blue text. Books listed in black text can often be found on a different website.
2. Copy the title of the book in black text and paste it into the search bar on [Wikimedia Commons](#). Select the "Other Media" sub-option, and the PDF files should appear in the results.
3. Repeat this process for other books listed in black. Please keep in mind that some books may not appear because they have not been uploaded there yet.
